

2

Bugmail filtering

Manuel Bucher

Motivation

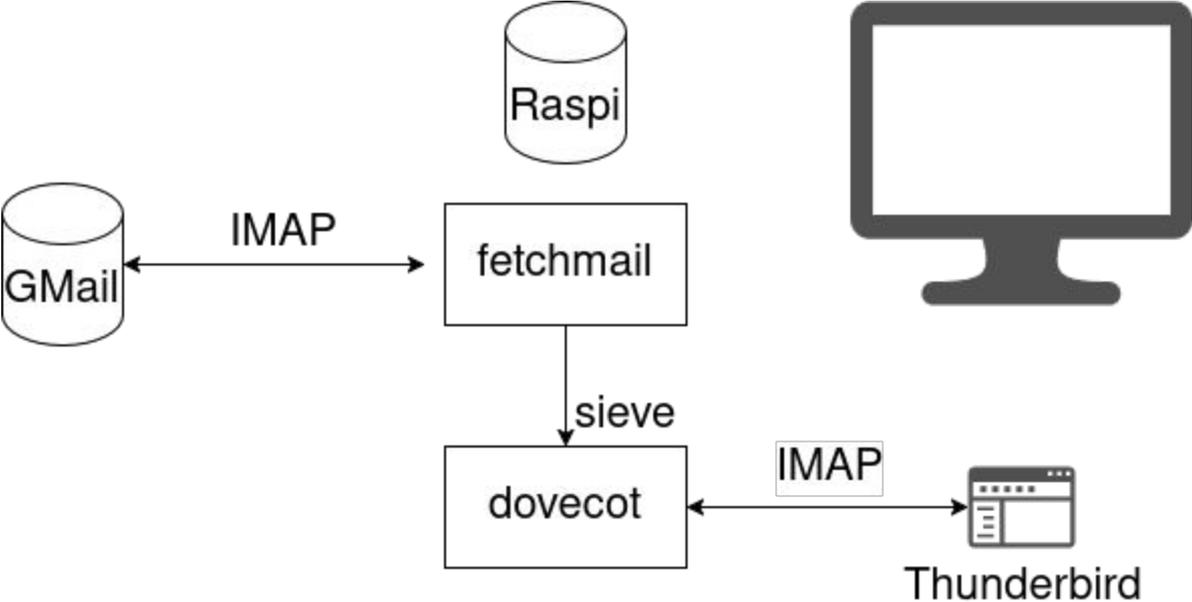

The screenshot shows a Gmail inbox with a search filter for 'label:bugzilla'. The left sidebar shows the 'bugzilla' label selected, containing 18,694 emails. The main inbox area displays a list of emails from 'bugzilla-daemon' with various subject lines related to Firefox bugs and network issues. The selected email is from 'bugzilla-daemon 2' with the subject '[Bug 1999711] Remove unused STL header inclusions in netwerk/** - Comment # 2 on Bug 1999711 from Pul...'. The time of the selected email is 上午11:24.

Sender	Subject	Time
bugzilla-daemon 38	[Bug 1946429] Disable RCWN (Race Cache With Network) for devices with SSDs - Comment # 18 on ...	下午12:18
bugzilla-daemon	[Bug 1999935] Remove nsICookieManager.addForAddOn and extensions.cookie.rejectWhenInvalid ...	下午12:07

Easy fix for sorting emails

- . Sort by involvement and component
- . X-Bugzilla-Reason: Reporter, AssignedTo, Voter, CC
- . X-Bugzilla-Watch-Reason: Component-Watcher / None

Information density in summary

[Bug 1984812] [KDE] Holding right click no longer selects options in [...]

becomes

 [Bug 1984812 unconfirmed p3 s3]    [KDE] Holding right click [...]

Unchanged

- Type: defect
- Status: unconfirmed
- Priority: P3
- Severity: S3

Changed:

- Added comment
- New outstanding needinfo

Tagging mail

- . Marking non-mozillian mail as important
- . Highlighting new bugs
- . Marking autoland commits

Practical advice

- Server-side filters to reduce noise like qe-whiteboard
 - https://bugzilla.mozilla.org/userprefs.cgi?tab=bugmail_filter
- Include X-Bugzilla- headers in BugMail body to filter from Gmail
 - <https://bugzilla.mozilla.org/userprefs.cgi?tab=settings>
- Use Thunderbird for more advanced filtering
